Wedding Bells

MORSE-SANDERS

The wedding of Harold Glen Morse and Lillian May Sanders, a well known young couple of the Irma district, took place at St. Thomas Anglican church, Wainwright, on March 15th, the 30th wedding anniversary of the bride's parents, Mr. and Mrs. Sanders. The Rev. C. M. Bateman was the officiating clergyman. On account of the roads being blocked with snow the wedding party set out in a sleigh for Fabyan on the morning of March 15, taking the train from there to Wainwright, returning in the same manner in the afternoon to the home of the bride's parents where a host of friends were waiting to receive them.

The bride was given in marriage by her father, Mr. Thos. Sanders. Miss Edith Fitzpatrick, a close friend of the bride acted as bridesmaid, and Edwin Sanders, a brother of the bride, ably supported the groom.

The ceremony was witnessed by near relatives and neighbors. The bride wore a dress of light beige trimmed with white, while the bridesmaid's dress was of figured voile.

A sumptuous breakfast was served at the home of the bride's parents to 22 relatives and neighbors.

A pleasant evening was spent in playing cards after which the happy couple left for their home in the Roseberry district.

The Times takes this opportunity to wish this happy couple a long, prosperous, and happy journey through life.

Mr. Sanders is putting on a dance in the Crescent Hill School on Monday, March 27, in honor of the above couple. Everybody is welcome.

CHICKEN SUPPER OF L.O.B.A.

A VERY SUCCESSFUL AFFAIR
The chicken supper put on by the Irma L.O.B.A. was a very successful affair from every standpoint, and the truly sumptuous dinner.

And was the turkey good? Ask a few of those present.

The program started off with a sing song of old Irish pieces. Mrs. Enger gave a reading; Gordon Fenton sang, "When Irish Eyes are Smiling" and Miss Mary McArthur gave a splendid recitation, after this there was more singing, ending up with "Golden Slippers", when the floor was cleared and everyone given a chance to use their slippers until 2 a.m. Lunch was served cafeteria style in the basement at 12 p.m., which everyone seemed to enjoy. Cards and tables were provided for those who did not dance.

During the evening tickets were sold on a beautifully worked cushion which had been donated for the lodge funds by Mrs. L. Hager. W. Blake was the lucky boy but returned the cushion for auction and Mr. B. Stone was the purchaser, the nice sum of \$6.65 was raised in this way and the lodge would take this opportunity of thanking Mrs. Hager for her kindness. Also Mr. R. Williamson, Mr. Herbert, Mr. W. Blake, and Mr. Finch, for their assistance with the music, which all helped to put on such an enjoyable evening.

QUINT QUILLS

Mrs. Tom Mackie, is visiting in Irma after her recent illness, having been in the Viking hospital for a few days.

Mr. Chas. Brickman spent a couple of weeks in Irma renewing old acquaintances.

We are pleased to see Evan Jones around again after an attack of flu.

Mrs. R. E. Weasbrook spent the past month with her aunt, Mrs. Templeton, in Edmonton.

"Well, darling," asked a Wainwright mother of her little tot on her return from her first day at school, "what did they teach you?" "Not much," the child replied, "I've got to go again."

Trade Your Wheat For Flour

I have made arrangements to trade wheat for Flour on the following basis:

- 5 1-2 Bushels No. 1 Wheat for—
98 lbs. ALBERTA ROSE FLOUR.
- 6 Bushels No. 2 Wheat for—
98 lbs. ALBERTA ROSE FLOUR.
- 6 1-2 Bushels No. 3 Wheat for—
98 lbs. ALBERTA ROSE FLOUR.
- ALSO—
- 6 Bushels No. 1 Wheat for—
98 lbs. PURITY FLOUR.
- 6 1-2 Bushels No. 2 Wheat for—
98 lbs. PURITY FLOUR.
- 7 Bushels No. 3 Wheat for—
98 lbs. PURITY FLOUR.

Your Patronage Respectfully Solicited
UNITED GRAIN GROWERS Ltd
JARROW ALBERTA

Mail Box.

The Editor, Irma Times.
Sir—In your issue of March 17, I read with regret of the accident of one of our esteemed friends and members. The Dreadnaughts are unanimous in their sympathy and very much regret the unavoidable absence of such a promising player as he was. The Avonglen boys glide smoothly over lesser ones, I'll admit. Get your bathing suit patched, Tom. Cheer! No hard feelings—just hard times!
J. NOTTINGHAM.

JARROW PERSONALS

Jarrow, March 22.—The concert put on by the Ladies' Aid on March 15, was well attended and those who were fortunate enough to be there enjoyed a good program. Mr. Taylor in his usual good manner, was the chairman for the evening and helped the entertainment with some good Irish jokes.

After the program, the ladies served lunch consisting of coffee, sandwiches and doughnuts.

Mr. and Mrs. Pete Lindquist and Russell and Vera Alexander attended the St. Patrick's dance in Viking on Friday night.

Mrs. Steve Micic spent the weekend in Edmonton.

Mr. H. McGuire is a patient at the Viking hospital.

Mrs. Taylor entertained the C.G. L.T. girls at her home on Tuesday evening. After the business meeting the girls were treated to ice cream and cake.

The C.G.L.T. girls have been asked to conduct the Sunday night services in the absence of Rev. Mr. Taylor. Mrs. Williams and children were Wainwright visitors Saturday.

Mr. and Mrs. Alexander and the Misses Rita and Clara Bothwell visited with friends in Viking on Saturday.

Mr. Wm. Dean spent Saturday and Sunday in Jarrow.

WELL KNOWN FARMER OF HARDISTY DISTRICT DIES

On March 18th, Mr. J. E. Frickeleton, a well known farmer of the Hardisty district, passed away at his home seven miles north-west of Hardisty.

Mr. Frickeleton, who moved in 1918, had been in rather poor health for the past eleven years.

The deceased was born at Woodford, near Owen Sound, Ontario, and would have been sixty-eight years old had he lived until the 27th of this month.

The funeral was held on Monday, March 20. A short service was held at the home of the deceased followed by another service in Loughheed, where interment took place.

Services were conducted by the Rev. Mr. Fowler of the Nazarene church, Loughheed.

Residing at his wife, the deceased leaves to mourn their loss, three sons, N. C. Frickeleton of Calgary; E. R. Frickeleton of Wainwright, and W. N. of Irma; and two daughters, Mrs. H. Metz and Mrs. A. Peterson, both living in the Hardisty district.

ALMER MATER NOTES

The Merry-makers are presenting their "Wild Oats Boy" on March 31st. You will be surprised to see how easy it is to put the "Wild Oats Boy" in his place.

Be sure to see the talent you have in your own district. It's worth seeing! The Merry-makers are going to put this play on at the Roseberry school in the near future. So you Roseberry people keep your eyes open for the date (to be announced later).

Irma, Alberta, Canada, Friday, March 24, 1933.

Council Minutes M. D. Battle River

The Council of the Municipal District of Battle River No. 423 met in the Municipal office at Irma, Alberta, March 13th, 1933, at 10 A. M. Meeting called to order and Councilors, R. D. Smallwood, W. A. Burton and H. D. Vesey signed oath of office being form "A" section 40 M. D. Act, 1926.

AVONGLEN NOTES

The Avonglen U.F.W.A. held the March meeting on the 16th at the home of Mrs. Allen. Forty-eight guests and members were present.

In the absence of Mrs. Taylor, the president, Mrs. M. Thomson, vice-president, occupied the chair. The meeting opened in singing, "Come Back to Erin." Mrs. Shotts accompanied the piano. Mrs. Feidler repeated the Club Women's Creed.

Roll call was responded to with an Irish joke by nearly all members, even our oldest, Mrs. Gesser, gave us reason for a hearty laugh.

Routine of business and correspondence was dispensed with as usual. Mrs. Lambert and Florence Allen gave two vocal duets and little Irene Lambert sang sweetly. "Wanted, a happy like the angels' play."

Mesdames Ballantine, M. Thomson, and Allen were chosen as a committee to draft a program from July to December inclusive.

Mrs. G. Whitley read the monthly bulletin. Mrs. M. Thomson and Mrs. K. Thomson each gave an interesting paper.

The meeting closed with the singing of "Where the River Shannon Flows." Pianist, Mrs. J. Shotts.

Lunch and a social hour over the cups brought another pleasant meeting to a close. Votes of thanks were moved for those participating in the program, and the hostess. The next meeting will be at the home of Mrs. Walter Gray on April 26th.

Mr. Erickson who has land interests in Orbindale district, spent the week end with Mr. and Mrs. R. L. Shotts.

Elizabeth Cooper spent the week end with Florence Allen.

The masquerade ball at Paschench school sponsored by the U.F.W.A. drew a large crowd from every community surrounding the school.

Mr. Erickson who has land interests in Orbindale district, spent the week end with Mr. and Mrs. R. L. Shotts.

Elizabeth Cooper spent the week end with Florence Allen.

RADIOGRAMS

It is a matter for you to decide whether Eddie Cantor, Jack Pearl, or Ed Wynn is the better laugh-producer. On Thursday night at 8.15 Pearl, known as Baron Manchusen, does his weekly stunts. He is very funny. In his assumed broken German-English he got off the following last Thursday—

"... And then in the baseball game flour-and-water stepped up." (He meant the batter). "The ball went very high and came down in the blonde." (He meant the bleachers). "He made a home run, only he forgot where he lived, put it to you! football player the hansom cab, a horse-and-buggy, yes, the COACH." "It was at lock-shed." (Yale bowl).

Ed Wynn, over Columbia network Tuesday evening, "Every time I see my uncle's head it reminds me of a cork." "That's what I say?" "Always at the end of a bottle."

From Salt Lake City KSL, the home of Mormonism, every morning at 7.15 comes a short religious service conducted by a different denomination. On Wednesday there was the negro pastor of the African M.E. Church. That shows a very fine spirit of religious co-operation.

The lawyer examining a witness insisted upon the simple answer of yes or no without the usual "I don't know." "For instance what would you say, yes or no?" "I question whether I put it to you." "Are you as big a fool as you look?"

Wm. Mattinson operates his radio on schedule much as a well organized train service. He has each hour of every evening on air, and he knows where to go for his favorite program. Such a system brings a lot of satisfaction.

Cantor said: "A man buys a suit of clothes with two pair of pants, but only uses the coat of the vest." And when mimics of Ed Wynn and Baron Manchusen attempted to remove the funny bone from Cantor, the scene became hilarious. Oh yes, you have to see with your own eyes in radio. Did you get the "war" when he spoke of that "fast walking stick" in his attempt to describe a hurricane?

It must have been a stirring time on Tuesday evening when Amos of Amos & Andy, dashed a string of hot potatoes and gravy into the face of Grindell. The result was that Amos received such a blow that he thought somebody turned out the lights. Regarding Madam Queen, "I think she still loves me, but the hope is fading."

The young man was milking the cow, and the old lady thought he ought to have culled in the war. "Young man why are you not at the front?" "Cause there ain't no milk at that end."

Have you met Peter Spraynozzle of the Utah Woolen Mills? He is a fine character. His philosophy is refreshing and stimulating. Get an introduction to Peter over KSL on Saturday evening at 8.30.

Herbert Turner had a group of boys singing Monday evening over C.F.C.A. They sang "The Song of Solomon" and they handled chorus work nicely. One boy named Stow, we thought worthy of relationship to the famous Viking family.

The wife was amazed to see the husband tired of all in bed dress and hat. "What does this mean?" "It is the only way I can get attention at the barber shop any more."

Taxation in Canada

TAXES-PERCAPITA

AGGREGATE DOMINION-PROVINCIAL AND MUNICIPAL

DOLLARS PER CAPITA	1925-6	1930-5	1931-2	1932-3	1933-4
40	1835-6	1904-5	1913-4	1921-2	1929-30
30	1834	1838	1910	1916	1928

Combined taxes levied by Dominion, Provincial and Municipal Governments in Canada were \$55,000,000 in 1925-6, \$93,091,361 in 1930-5, \$238,036,485 in 1931-4, \$280,651,718 in 1932-3, and \$772,969,645 in 1933-4, according to a study prepared by W. Sanford Evans, and released for the National Committee on Economy in Public Finance, by the Canadian Chamber of Commerce.

Per capita, the levies are as shown in the diagram; \$10.94 in 1925-6, \$15.98 in 1930-5, \$31.20 in 1931-4, \$36.10 in 1932-3 and \$77.08 in 1933-4.

Most tax bills are paid by heads of families. Adopting the census returns of 1921 of 4.52 persons as the average per family then taxes per family of \$14.4 in 1931-4 had grown almost 2 1/2 times to \$36.10 per family in 1933-4, or almost \$10 per month.

As with government expenditures and debts, these increases have far outrun the basic industrial and financial development.

Welcome Announcements.

The recent statement by Premier Bennett in the House of Commons in which he outlined the attitude of himself and his Government on the subject of reciprocal trade relations with the United States, and in which he declared that the United States was Canada's natural market, constitutes, not only an announcement of great interest and importance, but it has the effect of removing, at least so far as the principle involved is concerned, this particular phase of the tariff question from the realm of partisan politics. Differences of opinion as to details of any such trade arrangement may exist or develop between the two great political parties in this country, but so far as the question of the desirability of such an arrangement; it has now been quite plain that there is no difference of opinion.

To all those who feel that the important question of the tariff, should, as far as possible, be removed from the arena of partisan political controversy, this unanimity of view will be most gratifying, as well as a most hopeful sign that at no distant date a marked improvement in the trade relations of these two great countries, having so many things in common, and divided only by an imaginary boundary line, will be effected.

Premier Bennett made his momentous announcement when speaking to a resolution moved by a Liberal member, and which was worded as follows:

"That, in the opinion of this House, it is expedient that the Government of Canada re-open negotiations with the Government of the United States of America with a view of bringing about a satisfactory reciprocal trade agreement between Canada and the United States whereby the natural products of Canada, that is the products of the sea, the farm, the mines, and the forests, and including fish, lumber, wheat, cattle, etc., should have free entry into the United States in exchange for the admission of certain goods from the United States of America, which in the interests of both countries may be admitted into Canada, free from customs tariffs."

Almost equal in its importance to Premier Bennett's statement, is the announcement contained in press despatches that the new Administration at Washington, under the guidance of President Roosevelt, proposes to make overtures to the Canadian Government looking to the negotiation of such a trade agreement or treaty; if, indeed, such overtures have not already been tentatively made.

Canadians generally will welcome these new developments, and nowhere will they be received with greater goodwill, and with sincere hopes that success will attend such negotiations, than in the provinces of Western Canada. Unquestionably, the continent of North America is one economic unit, however it may be divided politically and nationally. Nature made it so geographically and climatically.

The United States can supply Canada with many things we do not, and cannot, produce for ourselves,—cotton, tropical and semi-tropical fruits, synthetic coal, many articles of manufacture, to mention only a few items.

On the other hand, the United States stands in need of enormous quantities of other natural products which Canada can supply in abundance. Why, then, should both countries erect barriers against the natural exchange of such commodities to the disadvantage of both?

Here in Western Canada we can raise tens of thousands of head of range cattle, but we are handicapped in finishing them for market, including the British market, and are at a distinct disadvantage in competing with the Argentine. But the United States raises enormous quantities of corn for feeding purposes. What is more natural than that Western Canada should ship thousands upon thousands of stocker cattle to the corn states to the south to be fattened for market? But countries would profit thereby.

Why should the Maritime Provinces be forced to look for markets long distances inland in Ontario and Quebec, even in the West, with the rich markets of the great cities along the U.S. Atlantic seaboard right at hand and easily and cheaply reached by water transportation? Why should Ontario, lacking coal supplies of its own, be denied free and cheap access to the great coalfields immediately to the south but in the United States? Why should either country cripple the natural flow of trade north and south, fighting geography in an uneconomical fashion, while striving for markets thousands of miles away?

Is it now admitted, almost universally, that the troubles which today beset the world are almost entirely of our own making, the result of our own blindness and stupidity, and not the fault of an all-wise Providence nor the breakdown of the immutable laws of Nature?

Canada and the United States have set the world an object lesson for more than one hundred years of an undefended boundary line thousands of miles in extent. We have shown the nations of the world how international relations should be conducted so as to avoid all physical warfare. Can we not also show the world, in its present time of distress, how international economic relations should be governed so as to avoid economic warfare?

Assuredly we can, if we will. And it is because we should do so that these announcements of the past few weeks are so welcome, so promising of great betterment for the peoples of both countries. And to us in Canada especially welcome as indicating a unity of desire and policy on the part of all our political parties in the advancement of the common good and economic welfare of this Dominion.

Canada's Shoe Industry

One of the Canadian industries to show increased production in 1932 was the leather boot and shoe factories. A corresponding decline was shown in imports of these commodities. In 1932 Canadian factories produced 17,879,218 pairs, while imports totalled only 343,965 pairs.

Great Britain has the highest taxation; France comes second and Germany third.

A \$4,250,000 paper mill is being built at Ellesmere, England.

Dog Runs Elevator

"Bal," a German police dog, has mastered the mysteries of elevator operation. He visits his owner, Robert Mullen, daily in a Denver office building, using his nose to push the button that sets the automatic elevator in operation. He also makes occasional visits to other tenants in the building, going from floor to floor unattended via elevator.

So rapidly has post-war ship design developed that a modern 40,000-ton liner costs less to run to Montreal than a 20,000-ton 30-year-old rival.

Headaches and Dizzy Spells Nerves In Bad Condition

Mr. Neil Crawford, Hamilton, Ont., writes: "My nerves were in such bad condition I found it almost impossible to get a good night's sleep. I was also bothered with headaches and dizzy spells."

I tried many different remedies, but they did not seem to give me much relief, but after I had taken Milburn's Heart and Nerve Pills I could hardly believe the change they had made in my condition."

For sale at all drug and general stores; put up only by The T. Milburn Co. Ltd., Hamilton, Ont.

Electric Eye Records Activity Of Housewife

Information Obtained By U.S. Bureau Of Home Economics

For each member of her family, the average housewife makes 18 trips a day to the kitchen sink, according to a February issue of the American Journal of Home Economics.

Each time, she goes to the sink, the article shows, she spends, on an average, one minute.

Thus, the homemaker in a family of five will average 90 trips daily to the sink, and will work there for an hour and a half.

A photo-electric eye was used to help record every trip made, together with the time spent at the sink. The U.S. Bureau of Home Economics was asked to make this study by the chairman of the committee on kitchens of the president's conference on home building and home ownership, and it received outside co-operation.

An analysis of the study shows that the Washington, D.C., housewives in whose kitchens the photo-electric eye was placed, spent from 38 to 152 minutes at the sink each day, while the number of trips varied from 32 to 217. The reasons for such variations, according to the article, can be determined only by more detailed studies. The definite factual data hitherto unavailable in such studies should make possible more definite conclusions as to the comparative efficiency of different types of kitchen arrangement, Dr. Stanley says.

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake up your Liver

—Without Calomel

You are "feeling down" simply because your liver isn't pouring its daily two pounds of liquid bile into your bowels. Digestion and elimination are both hampered, and your entire system is being poisoned.

What you need is a liver stimulant. Something that goes farther than calomel, mineral water, laxative candy or chewing gum or roughage which only move the bowels—something that cleanses the liver. Wake Up Your Liver Pills. Purely vegetable. No harsh calomel (mercury). Safe. Sure. Ask for them by name. Refuse substitutes. 25c. at all druggists.

Rich Gold Strike

New South African Field Opens Up Great Possibilities

Another great gold strike—possibly equal to past rushes which helped end former depressions—was described to the American Institute of Mining and Metallurgical Engineers.

One-eighth of the world's present gold production is the estimate, though not yet proven, capacity of this new field, the Consolidated Goldfields, South Africa. This dazzling estimate was reported by F. W. Lee, supervising engineer, geophysical supervising engineer, geophysical section, United States Bureau of Mines, Washington.

It caps several weeks of reports in inside circles of New York engineers that the new South African field might produce enough gold to start the ball rolling toward world prosperity.

Lee told the story of how the new scientific "diving rod," the magnetometer, located the ore.

"The greatest outstanding achievements of the year," said Mr. Lee, "was made by the engineers in the Consolidated goldfields. Here the sub-outcrop of the main reef series was traced from Middelville through properties of the Westward area, a distance of from 30 to 40 miles."

TIRED AND IRRITABLE?

Take Lydia E. Pinkham's Vegetable Compound

It steadies the nerves and helps to build you up. You will eat better... sleep better... look better. Life will seem worth living again. Remember that 98 out of 100 women say, "It helps me." Let it help you too. Liquid or tablet form, as you prefer.

Catalogues Human Diseases

Retina of Eye Affected By Any Abnormal Condition

Practically every disease common to man, says Dr. Clarence R. Ellis, of the Ohio State University applied optics department, can be diagnosed by an examination of the retina of the eye.

Any abnormal condition, he explained, affects the retina immediately—particularly such diseases as brain tumors, heart trouble, cancer and inflammation of the liver.

The chief cause of eye trouble, he added, is the use of too powerful light bulbs in reading lamps.

Ninety per cent of the world's clothing is made of cotton.

People of Denmark are against the idea of using silver in coins.

Robe Proved Good Mascot

Gift Of Maori Chief Treasured By British Admiral

Admiral Sir Lionel Halsey, commander and treasurer to the Prince of Wales, told the Authors' Club at London, England, of a New Zealand "kiwi" robe which he wore whenever he fought in action during the Great War.

The garment, a kind of kilt made of flax, was given to him by a Maori chief when he was in command of the battle-cruiser "New Zealand." The "New Zealand" went on a cruise to the Dominion. One chief, after being shown over the ship, gave him the "kiwi" robe and asked him to promise that whenever he took the ship into action he would wear it. He told him that it had been worn by his forbears in war, but that it would never be required in that country again.

On August 28, 1914, when the action of Heligoland was fought, Sir Lionel said he wore the robe in the conning tower, and he added that the "New Zealand" never received a scratch during the fighting.

After this the garment was looked upon as a mascot. On Jan. 24, 1915, the "New Zealand" fought the German ship "Blücher," which was sunk. Again he wore the "kiwi" with the same result, the "New Zealand" receiving no damage whatever. In May, 1915, he left the "New Zealand" to Captain, later Admiral, Sir John Green. He handed over the "kiwi" to his successor and in the Battle of Jutland Captain Green wore it when he took the ship into action. Two ships in his own line were blown up and sunk, but the "New Zealand" received practically no damage whatever. After the war, Sir Lionel added, the garment was returned to him and it was one of his most treasured possessions.

Another Use For Radio

Fever Machine Is Newest Treatment For Certain Diseases

A "fever machine" which treats disease by the power of radio waves to raise the temperature of the body is described before the American College of Physicians at Montreal.

It is a new application of radio, treating disease instead of sending messages, and was reported by Dr. Walter M. Simpson of Dayton, Ohio. The machine is used in treating diseases that are sometimes cured and often improved by producing artificial "fevers" in the body. Among these diseases are general paresis, a form of paralysis that attacks many insane persons, some forms of arthritis, a disease of the joints, and diseases that affect the bodily extremities—arms and legs. The machine is a short-wave radio transmitter, which "broadcasts" 30-meter radio waves through the patient from large metal plates.

Orient Buying Wheat

Shipments From Canada This Season Total 8,814,011 Bushels

Steadily increasing demand in the Orient for wheat is instanced by the fact that Canada has shipped 8,814,011 bushels to China so far this season. This is 677,413 bushels greater than shipments at this time last year, and it is believed final figures will exceed last year's mark by more than a million bushels.

Bookings up to the end of March for the Orient are 366,666 bushels. Only the lower grades are wanted, and Australia, near at hand, has been getting the lion's share of the business.

A machine in the coast and geodetic survey office at Washington, D.C., can predict the tide for any place in the world, at any hour, for centuries to come.

Canada's acreage in field crops increased from 15.6 million in 1890 to nearly 58 million in 1931, or by approximately 272 per cent.

Art Competition

Manitoba and Quebec Student Architects Win Awards

Manitoba and Quebec student architects won awards in the Royal Architectural Institute of Canada competitions, result of which were announced recently.

Léonce Desgagnés, Ecole Des Beaux-Arts, Quebec, won first prize in the class "A" project, in which 53 designs were submitted, and Eric Thrift University of Manitoba, was awarded first prize in class "B" project. Forty-nine designs were submitted for the latter class.

Maurice Germain, Ecole Des Beaux-Arts, Montreal, won second in class "A" project; G. R. Whale, University of Toronto, was third, and William Sheets, University of Manitoba, received honorable mention.

In class "B" Lowell Wallace, University of Manitoba, was second, and L. M. Saunders, University of Toronto, third. The University of Alberta had one design entered in the class "A" project and eight in class "B" but won no prize.

The jury of award consisted of: H. L. Featherstonhaugh, Montreal; Irene Vautrin, Montreal; Wilfrid Lacroix, Quebec; John M. Lyle, Toronto, and H. J. Burden, Toronto.

Aviator Was Popular

Took Fresh Vegetables To Arctic Miners In Severe Weather

Leigh Brintnell, president of MacKenzie Airway Services, Limited, was the most popular man in the Great Bear Lake, mineral fields on New Year's Day.

With the thermometer hovering at 60 below the zero mark Brintnell swooped down with a load of 500 pounds of fresh vegetables from Edmonton for mining men at the Eldorado holdings.

After a diet of canned goods and meat for several weeks the vegetables brought by Brintnell were a welcome addition to the larder of the hardy winterbound miners.

The Edmonton pilot's boast is that he made the long flight from Edmonton to Great Bear Lake, under most severe weather conditions without having a single head of lettuce or as much as a tomato frozen. A special heating device, designed by Brintnell, was installed in the cabin of his machine.

Stratosphere Plane

Prof. Piccard Believes He Can Build a Plane That Will Cruise Upper Spaces At High Speed

Prof. August Piccard, explorer of spaces 10 miles above the earth, is convinced he can build an airplane capable of flying through the stratosphere at 500 miles an hour.

The statement came in answer to a question by Dr. John Cruikshank, secretary of the Los Angeles University of International Relations, as to whether the Swiss scientist thought he could construct such a plane if he were furnished \$500,000 for the purpose.

"I believe I could do so within a year and a half," he said. "And in my opinion the stratosphere plane is a thing of the most distant future."

Professor Piccard last August ascended to an altitude of 10,435 miles in a special balloon to obtain experimental data on cosmic rays.

Canadian Egg Inspection

In 1931 the Egg Grading Service of the Department of Agriculture inspected 769,919 cases of eggs. In addition to the regular work of inspection by approval, the inspection staff makes approximately 40,000 calls annually on wholesale and retail dealers throughout the country. This is for the purpose of checking up outgoing shipments of deliveries, the purchase of current receipts from producers, country store keepers and jobbers, and giving instructions and direction in candling and grading in accordance with the Canadian Standards.

A patent for a medical compound is obtained only in rare instances in the United States.

Long Gas Line

Proposed To Build Gas Line From Alberta To The Coast

The findings of the Alberta conservation commission is expected to have a bearing upon the plans of oil syndicates to construct a pipe line through to the coast to supply the cities of Vancouver in British Columbia, and of Spokane, Seattle and Tacoma in the state of Washington, with natural gas, it was stated by William C. Fisher, of Calgary.

"This is not a visionary project," said Mr. Fisher. "The findings of the conservation commission will determine the extent of the gas pressure in the Turner Valley area."

"If it is proved that the field can guarantee a 20-year supply, there should be nothing to hinder the proposed gas pipeline to the coast for the supply of cheap natural gas."

Appliance For Railroads

Any sudden depression in a railway track is instantly detected and marked on a chart while the train is passing over it by a new appliance designed by an Australian inventor. It does away with the need of a daily inspection of the line.

Main Street"All a Mistake?"
Mrs. Percy Jones, sister of Mrs. Mackie, of Kinsella, is visiting in Irma for a short time.

Rev. Mr. Gieson is still confined to his home on account of throat trouble. The United Church service last Sunday evening was ably conducted by members of the Young Peoples Society.

Rev. Mr. Taylor of Jarrow, will preach in the Irma United Church next Sunday evening, March 26, at 7:30 p.m.

Make a date right now for the Merry-makers' play, "The Wild Oats," March 31st, at the Alma Mater school.

The W.M.S. Presbyterian of Wainwright Presbytery was held in Holden on Wednesday, March 22nd. The following Presbytery officers of Irma attended: Mrs. A. H. Locke, Mrs. L. S. Reeds, and Mrs. H. Osterhaut and Mrs. E. W. Carter as official delegates. We will endeavor to have a report of this meeting in a later issue.

"All a Mistake?"
The minutes of the meeting of the Council of M. D. Kinsella No. 424 arrived too late for publication in this week's issue. They will appear in the issue of Friday, March 31st, being the last issue that the ratepayers receive the Times under contract with the Municipality as the Council have decided to terminate the contract. Many of the ratepayers will no doubt regret not receiving the paper as usual.

A number of friends and relations gathered at the Elliott home, Thursday of last week to help Mrs. J. H. Elliott celebrate her seventy-ninth birthday. Mrs. Elliott is to be congratulated on having attained such a number of years and the huge circle of "Irma Times" friends extend to her best wishes for health and happiness for the future.

"All a Mistake?"
Miss Maude Smallwood, R.N., returned to her home at Strawberry Plains on Friday, after three weeks' professional duty at the home of Mrs. E. Lacroix, who has been seriously ill but at this writing is slowly recovering.**NOTICE TO RESIDENTS OF KINSELLA M.D. No. 424**
On account of the councillors of the above M.D. deciding not to subscribe for a newspaper during 1933, the contract between the M.D. and the Irma Times will terminate on March 31st. The editor will be pleased to receive subscriptions from any of the ratepayers at any time.**Review of Western Markets****CATTLE**

Frames and Greenhouse Benches**Automatic Heat Control Has Many Advantages For Amateur and Professional Gardeners**

Gives hot frames the flexible temperature control now exclusively held by hot houses. Soil Heater supplies heat only when necessary. Manure is uncontrolled.

With ordinary care and properly banked Framed Soil Heated hot frames can be used in mid-winter, although their greater use is in early spring and fall work.

Even when heat is not required for forcing growth, the Soil Heater Thermostat can be set as a guardian against unexpected frost.

Four square yards of Soil Heated hot frame in the inclosure maintains 60 degrees minimum temperature for two months on approximately 216 kilowatt hours.

The flexible temperature control of the Soil Heater permits controlled plant growth hardening off when desired, and advantage being taken of favorable market conditions.

Existing hot frames or benches may be used without extensive rebuilding and the same set-up can be used year after year.

Our Local Managers will be glad to give you further particulars regarding economical cost and proven results of Soil Heating by Electricity.
